CONTENTS

Vol. 85, No. 1, February 25, 1965

PAGE

Maki, M., Nagasawa, K., Nagayama, M. and **Sasaki, K.** Parameters of Plasmin System during Normal Pregnancy, Labor and Puerperium, and Relation of Sex Hormones to Plasmin System 1

Sakka, M. Leukemia and Ionizing Radiation in Japan..... 12

Tada, K. and **Ito, H.** *In vivo* Conversion of Tryptophan to Indoleacetic Acid in Children..... 16

Nakajima, A., Yamamoto, T., Sekiguchi, E., So, S. and **Yoshitoshi, Y.** Measurement of Fe^{59} and Fe^{55} in the Composite Sample 21

Fujiwara, T., Hirono, H. and **Arakawa, Ts.** Chemical Identification of the Surface-active Material Isolated from Calf Lung 33

Kuroda, S., Nagamori, H., Ebe, M. and **Sasaki, M.** Medico-legal Studies on the Fetus and Infant: With Special References to Histological Characteristics of the Lungs of Liveborn and Stillborn Infants .. 40

Fukuda, K. Clinical and Pathological Aspects of Wilson's Disease in Cases of One and the Same Family 55

Nagasawa, J. Calcium Movement in the Smooth Muscle of Guinea-pig Taenia Coli 72

Tanemura, I. and **Ito, S.** Phenothiazine Derivatives on Avoidance Behavior in Rats 83

Taira, N., Imazawa, Y. and **Motokawa, K.** Electrical Stimulation of On- and Off-units in Cat's Retina 89

Vol. 85, No. 2, March 25, 1965

Tada, K. and **Ando, T.** Congenital Hyperglycinemia; Demonstration of a Minor Metabolic Defect in the Parents 105

Koyanagi, T., Hareyama, S. and **Takanohashi, T.** Effect of Supplementation of Vitamin, Phosphorus, Methionine or Skim Milk on the Cystine Content of Hair, Dark Adaptation, Creatine-Creatinine Excretion and Growth of Undernourished Children 108

Fukuda, K. A Genetic Aspect of Wilson's Disease in Japan 115

Kojima, M. and **Takahashi, K.** Concept of Reticuloendotheliosis 120

Higuchi, Y. A Study on Oxygen Consumption in the Limbic System, Especially in the Hippocampus 143

Koyanagi, T., Ueki, M. and **Suwa, J.** Effect of Dietary Egg Albumin on the Phytase Activity of Rats Fed on Rice Diet 155

Sasai, Y. Histochemical Demonstration of Phosphorylase a, Phosphorylase b and Phosphorylase Kinase in Normal Human Skin 160

Yonemura, D., Strzyzewski, K. and **Jacobson, J. H.** The Relationship between the Indifferent Electrode and Corneo-negative Potential in a Non-illuminated Eye 171

Arakawa, Ts., Ohara, K., Fujii, M. and **Hirono, H.** A Simple Method for Detection of Formiminoglutamic Acid in Urine 178

Fukuchi, S., Hanata, M., Takahashi, H., Demura, H. and **Goto, K.** The Relationship between Vascular Reactivity and Extracellular Potassium 181

Shiratori, T., Sugawara, K. and **Kuroda, S.** Surgical Significance of Pyloroplasty with Special Reference to Electromyographic Findings .. 192

Vol. 85, No. 3, April 25, 1965

Yabuki, S., Chin, S., Ikeuchi, H., Yasuda, S. and **Saito, T.** Method and Results of Pulmonary Resection for Massive and Frequent Hemoptysis 201

Matsushiro, T. Effect of Known Constituents of Bile on the Activity of Bacterial β-Glucuronidase 210

Shirai, M., Imabayashi, K., Matsushita, S., Kagayama, M. and **Irisawa, S.** Histological and Biochemical Studies on the Testicular Tissue after Sections of Various Nerves Innervating It 221

Suzuki, N. On Black Pigment of Gallstones with Special Reference to Difference from Melanins 238

Tada, K. and **Hayashi, T.** Erythrocyte Glucose-6-phosphate Dehydrogenase Activity in Klinefelter's Syndrome 248

Yajima, A. The Nucleic Acid Content of the Brain Tissue of Rats as Influenced by Age 252

Matsuzawa, T. Survival Time in Germfree Mice after Lethal Whole Body X-Irradiation 257

Hatafuku, T. Appraisal of Gastric Freezing by the Use of Experimentally Produced Gastric Ulcer 264

Natsume, O., Shio, N. and **Kawamura, S.** Experimental Review on the Renal Hypertension 274

Urabe, M. and **Tsubokawa, T.** Stereotaxic Thalamotomy for the Relief of Intractable Pain — CEM-thalamotomy — 286

Vol. 85, No. 4, May 25, 1965

Maebashi, M., Yoshinaga, K., Aida, M., Okuyama, M. and **Oikawa, A.** Assay of Plasma Renin Substrate in Man 299

Yamane, I., Matsuya, Y. and **Kusano, T.** Establishment and Characteristics of Two Cell Lines from Embryos of dd-Stock Mouse 305

Tsuchida, S. Speleotomy in Renal Tuberculosis 317

Matsushiro, T. Identification of Glucaro-1,4-lactone in Bile as a Factor Responsible for Inhibitory Effect of Bile on Bacterial β-Glucuronidase 330

Sasai, Y. A Histochemical Study on the Mechanism of Blister Formation in Epidermolysis Bullosa Group 340

Sato, S. Effects of GABA, GABOB and GOBAB on the Cells Cultivated *in vitro* 346

Matsuzawa, T. and **Wilson, R.** Oxygen Changes in Tissues of Germfree and Conventional Mice after Inoculation of Bacterial Endotoxin 361

Sakurada, T. Separation of Human Thyroid Hormones by Thin Layer Chromatography 365

Stewart, J. L. and **Funaki, F.** Hearing Aid Selection for Young Children 374

Shishito, S., Sugita, A. and **Onodera, Y.** Retrograde Renal Arteriography Using a Balloon-fitted Vascular Catheter 378

Suzuki, N. On Black Pigment of Gallstones with Special Reference to Comparison with Bilirubin Derivatives..... 396
